

The 11th International Conference

Innovative Technologies for Joining Advanced Materials

Indexed in major international database:
SCOPUS, Ei Compendex, REAXYS Etc.

Conference topics

- New joining technologies
- Coatings: advanced materials & innovative technologies
- Modelling and simulation of welding and allied processes
- Specific problems in advanced materials joining
- Advanced methods and new trends in NDT
- Mechanical and structural characterization of advanced materials and joints
- Quantitative non-destructive testing
- Fracture mechanics of advanced materials
- Damage of advanced materials under time-dependent-actions and remaining life assessment, fatigue, creep, corrosion, irradiation
- Quality of welded joints and welded structures

Important dates

- Submission of abstracts
May 15, 2020
- Abstract acceptance
May 25, 2020
- Submission of papers
July 31, 2020
- Acceptance of papers
October 16, 2020
- Registration of participants
November 11, 2020

November 26-27, 2020
Timisoara, ROMANIA
www.isim.ro/tima

Organisers

2021

Timișoara 2021
European Capital
of Culture
